#### CARVER-PENROSE.

The Much Talked of Shoot Decided After a Very Close Contest.

Dr. Carver Wins by One Bird-Score 76 to 75.

The unfinished shooting match, between Dr. W. F. Carver of New Haven and H. A. Penrose of San Angelo Tex, was decided yesterday afternoon at the driving park in the presence of several hundred spectators; Dr. Carver winning by one bird after a very close and exciting contest, by a score of 76 to 75

The match was at 100 live birds. thirty yards rise, with use of both barrels, for a purse of \$1500. This shoot was to settle the original match which occurred on Sunday the 15th inst., and which resulted in a tie, giving general dissatisfaction. The stakes which had been \$500 were increased to \$1500 and the match set for last Thursday, but for want of birds, it was postponed until yesterday, with the agreement that the shooters

could have the use of both barrels. The day was unfavorable for a large score, as a stiff breeze was blowing in the backs of the shooters and in favor of the birds, many of them getting up from the traps and "driving" full away from the marksmen aided by a strong wind. In consideration of this

fact and the liveliness of the birds the score was a remarkably good one.

The sport commenced shortly after 3 o'clock p. m. Dr. N. D. Barradall was chosen referee; Mesers. Beebe and Bondurant judges, and Mesers. Short, Flanagan and Howard scorers Both men killed their first three birds, Carver missing his 4 h. and Penrose his 5th. When twenty-five rounds had been shot. Penrose was leading by two birds. He missed had been shot. was leading by two bird. He missed his orb, 7th, 10th and 15th birds, kiling twenty-one out of twenty-five. Carver missed his 4 h, 16 h, 19th, 221,

The match grew very exciting in the last twenty five rounds, and at one time it looked as though Penrose would surely win Dr. Carver missed his 76th and 77th birds leaving Penrose leading by two. Penrose missed his 82od and 83rd, making the score spain a tie. Dr. Carver me. again a se. Dr. Carver missed his 84 n 86 h and 88th, falling three birds behind. After shooting the 88 h shoot Dr Carver discovered that his gun was disabled, the rib on top of the barrels being broken in two. Penrose kindly tended the use of his gun, and the doctor did splendid shooting with

it during the remainder of the contest. He missed his 93rd cird and was then wo behind. Petrose missed his 89.n. D2nd, 93rd and 91 h. He killed bis 36 h and the score was again a tie. Dr. Carver killed bis hast fly-birds, and Penrose missed his 97 h, losing by one bird with a score of 75 to 76 against him. There was some slight dissatisfaction at the re-ult, but, so far as the reporter count see, it was decided on its merits. The men are very evenly matched, and, everything considered, the score was a fine one. A number of birds ell dear just outside of the bounds, and several were declared lost on account of being shot on the ground by the shooters in

their efforts to do some fine "snap" shooting. After the match the scorers com pared lists and the referee declared that Dr Carver had won by one bird.

with a score of 76 to 75. With the exception of one or two slight disputes about the English rules. which governed the match, every thing passed off pleasantly and sailfectority. Penr se seemed depressed over the result and attributed the less of the match to hard tuck. His birds were hard ones, and he lost a number of "drivers," which he hit

very hard. A reporter met Dr. Carver after the contest, and he said: "I was us der the impression that the match was a tie would be another squabble over it. could not have won unites Mr. Pen-rose had off-red the use of his gun after mine was disabled.
